

ZACHARY SMITH

Manhattan Beach, CA • (310) 890-6248 • zachary90266@gmail.com
github.com/Delicatessen0 • delicatessen0.github.io/Portfolio-General

EDUCATION

Pennsylvania State University B.S. in Data Science	University Park, PA 2022 – May 2026
Mira Costa High School High School Diploma	Manhattan Beach, CA 2018 – 2022

TECHNICAL SKILLS

- **Languages:** Python, R, SQL, JavaScript (ES6+), HTML5/CSS3
- **AI & Machine Learning:** scikit-learn, XGBoost, PyTorch, TensorFlow, HuggingFace Transformers, FAISS, VADER NLP
- **Web & Frameworks:** Next.js 16, React 19, Tailwind CSS, Recharts, Chart.js, Node.js
- **Data & Developer Tools:** MySQL, SSMS, Tableau, Git/GitHub, VSCode, Pandas, NumPy, Matplotlib

PROFESSIONAL EXPERIENCE

Data Science Intern Pacific Healthworks	Feb 2023 – Jul 2026
• Structured, analyzed, and visualized healthcare datasets using MySQL and SSMS to optimize hospital operational trends. • Built interactive Tableau performance dashboards enabling clinical leadership to evaluate resource allocation efficiency. • Automated data transformation pipelines and reporting tables, reducing manual visualization workflows by over 40%.	
Market Analytics Intern Career Movement	May 2023 – Aug 2023
• Conducted market research and trend analysis on employment data to inform strategic hiring recommendations. • Performed structured database management and cross-functional data verification to maintain data integrity.	
Operations Specialist Pennsylvania State University	2024 – 2025
• Collaborated within high-volume event teams to execute customer service workflows and inventory tracking.	

FEATURED DATA SCIENCE & SOFTWARE PROJECTS

Game Recommendation LLM Engine Python, HuggingFace, Transformers, FAISS	2026
• Engineered a semantic recommendation system using HuggingFace transformer embeddings to compute catalog similarity. • Constructed a high-throughput FAISS vector index enabling sub-millisecond similarity search across large datasets.	
Steam Game Market Success Predictor Python, XGBoost, SteamSpy API, VADER NLP	2026
• Developed an end-to-end ML classification model achieving 85.7% accuracy predicting product market success. • Extracted live API telemetry and executed VADER sentiment analysis on customer review text to engineer model features.	
Live-Service Churn Analytics Model Python, XGBoost, Cox Hazards, Scikit-Learn	2026
• Built a hybrid classification & Cox Proportional Hazards survival model predicting player churn risk from telemetry.	
DataPulse BI Analytics Portal Next.js 16, React, TypeScript, Recharts, Surge	2026
• Architected a full-stack executive BI dashboard with interactive time-series modeling, retention heatmaps, and CSV export.
